

Go to The Walks page on our website where you will find a table listing all the walks - where the walk starts, villages it will pass through and where it will end, a link to the basic map indicating the location of these villages within South Pelion, a copy of the email sent out to members about this walk - indicating where we normally meet and any other information, such as car transfer and a link to a gallery of pictures taken on this walk previously. The final two columns give a link to the appropriate page on [Walking Pelion](#) and/or [Pelion Walks](#) where you will find much more detailed information about the walk, the distance, the approximate time it will take, the scale of difficulty, GPS co-ordinates, things of interest which you might expect to see on the walk, and so on.
